

BOTZ

NFTs Powered by Your Crypto Project

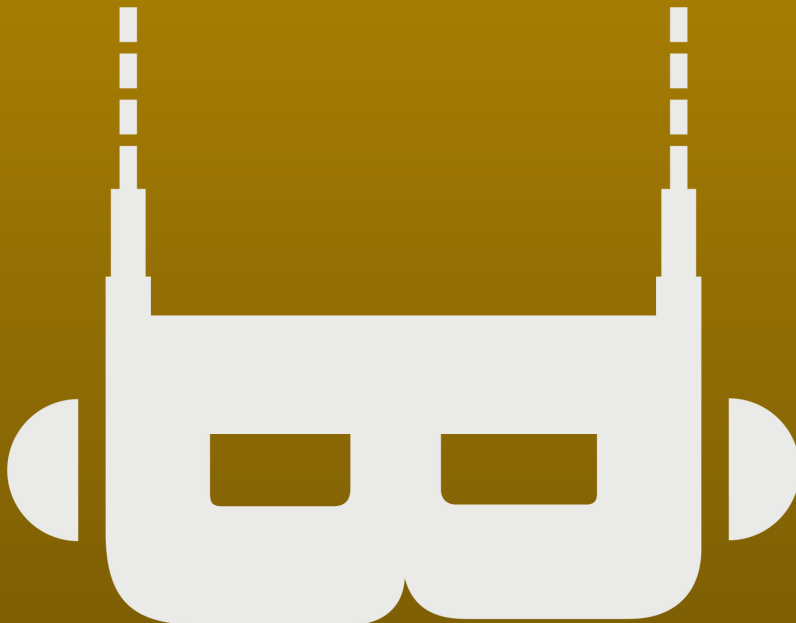

Imagine a BOTZ world

Simple - Smart - Profits!

Imagine a world with self-driving cars, robot vacuums, robot lawn mowers and automatic coffee makers having your cup ready when you get out of the shower. You don't have to use your imagination, the world of robots is already here.

If robots are taking care of so many aspects of your life, why aren't they making you money? Automate your users returns using our BOTZ by simply holding a BOTZ NFT in their wallet.

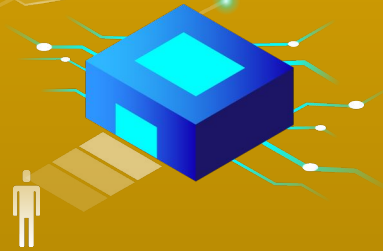

NFTs and Your Project

NFTs

Non-fungible tokens (NFTs) are digital assets on a blockchain with unique identification codes and metadata that cannot be duplicated. The ownership of each NFT is recorded on the blockchain and can be sold or transferred from one owner to another.

Your Project

No matter the project, NFTs are a way to simplify the process of using your ecosystem and automatically pay your users. BOTZ NFTs take all the work out of the process for users making your project much more accessible which will in turn help on board more users and bring more capital into the project.

How BOTZ Works

1. Users purchase a BOTZ NFT for 250 USDC on our site or OpenSea
2. BOTZ sends an NFT directly to their MetaMask wallet
3. Users wait until the first of the month after a full calendar month of holding your NFT
4. BOTZ sends holders portion of the monthly rewards generated in your project to their wallet on the first of the month

Why BOTZ?

100% Guarantee

Life happens. If you need it, BOTZ will fully refund your 250 USDC on day one of the payouts no questions asked.

No Ponzinomics

BOTZ does not need new investments to pay off NFT holders. Underlying projects create income 24 hours a day, 7 days a week.

No Fees

BOTZ charges no fees whatsoever. No buy fee, no sales fees. Your money works for you 100% of the time.

USDC on Polygon

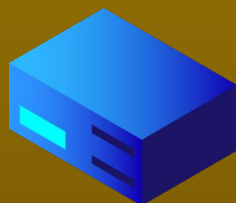

BOTZ Phaze 1-4 NFT collections will be minted on Polygon using USDC. This means fast, secure and inexpensive transactions.

OpenSea

BOTZ NFTs can be bought and sold on OpenSea, the world's first and largest web3 marketplace for NFTs.

Doxed

BOTZ is lead by founder Paul Donaghy and he will share his personal contract information with each project we partner with.

BOTZ community and marketing combined with yours

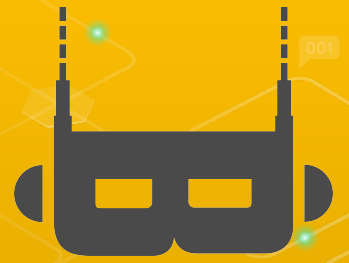

Expand your community and marketing efforts by teaming with BOTZ. Your project will be given exposure within our community via our email list, social media channels and following on a variety of blogs.

Not sure how to launch your NFT project? There is no reason to worry, we have you covered and will bring our experience and expertise to the table. We will design, mint and market your NFTs.

You just need to sit back and watch project TVL grow and grow.

NFT Project Launch

“ Compound interest is the eighth wonder of the world. He who understands it, earns it; he who doesn't, pays it.

- Albert Einstein

COMPOUNDING

Users will use rewards generated from your NFTs to purchase more and increase their passive income stream.

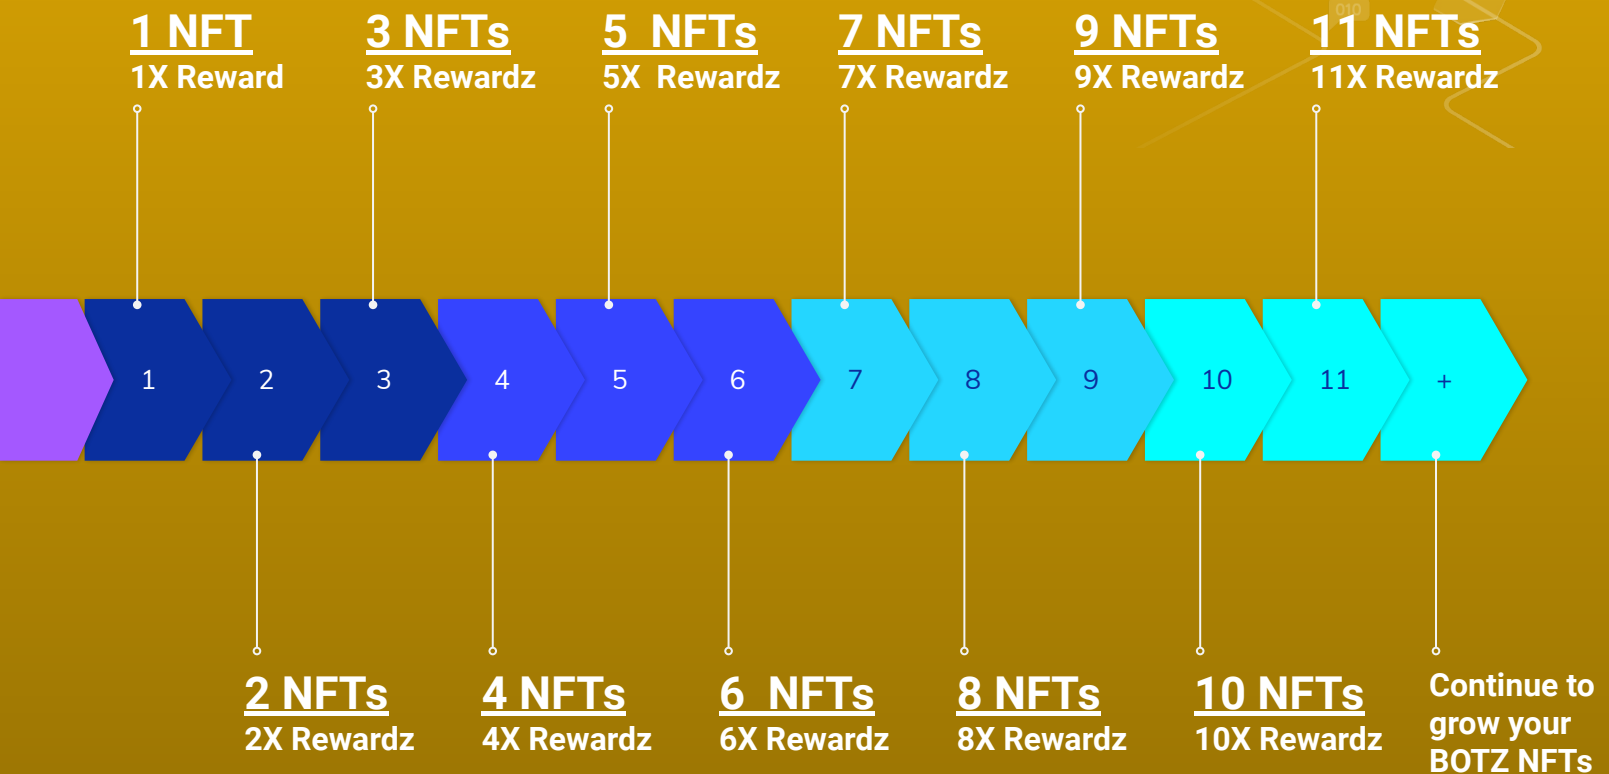

Scaleable

Grow your passive income

With BOTZ NFTs there is an easy way to scale up your rewards - compound your NFTs. Since each NFT costs 250 USDT, use monthly rewards to purchase additional NFTs.

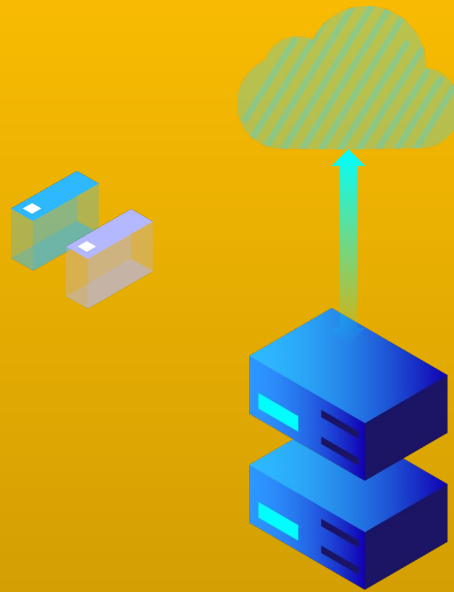

The more BOTZ NFTs you hold in your wallet, the greater your weekly passive income stream.

That is the POWER of compounding!

Sustainable

Growth over time

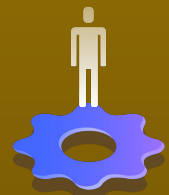

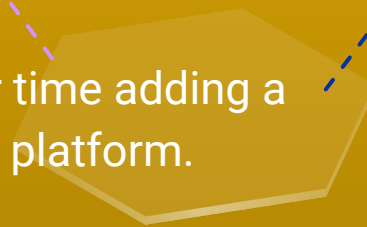

BOTZ offers your project sustained growth over time. The simplicity of holding an NFT makes your project, no matter how complex, even more attractive.

More and more NFTs can be added over time adding a continued source of fresh capital into the platform.

NFTs also add flexibility over time by allowing for different allocations within your project to be offered to holders. Do you have a more conservative offering, more moderate and more aggressive? BOTZ can build NFTs to fit investment styles or any to take advantage of different aspects of your projects ecosystem.

As you add new features over time, new NFTs can be generated to represent new offerings.

Meet the BOTZ Team
